Subject: DELIBERATIVE - Draft Review Comments on the AW Briefing Document
Summary of collective EPA review of American Water document clean feb 27 1135am.docx

Bill and Vicky,

Per your request, we've completed our review of the *Briefing Document on Evaluation of Chemical Interactions with Pipes*, and the draft review document is attached. This review was conducted by a team comprised of scientists and engineers from ORD and OW.

Note that this document is still marked "draft" as it is currently undergoing the final level of ORD review by Bob Kavlock. Once that review has been completed, we'll let you know. At that time we'll either send out a revised version, should Bob's comments require revisions, or we'll let you know that the "draft" marking can be removed.

If you have follow-on questions, you can respond to anyone copied on the email. We'll make sure any questions are routed to the appropriate person.

Thanks,
Steve
